

## ADC President Receive 2015 Financial & Business Technology Award

**Lansing, NY, June 29, 2015** – Alexander Deyhim, founder and CEO of ADC USA Inc., received the 2015 Financial & Business Technology Award in a special ceremony that was held in SRC Arena Syracuse NY on Thursday June 25<sup>th</sup> 2015. The Technology Innovation Awards distinguish pioneers that have developed clear visionary and transformative technology. The Technology Innovation Awards showcase what technology companies have done to advance their projects and technology so that it can result in new high-tech manufacturing jobs to drive better efficiency and productivity as well as the outcomes and performance of an organization.

Mr. Deyhim was recognized for his leadership and continuous effort for bringing new contracts that help develop manufacturing and technology related jobs in upstate New York. He is instrumental in ADC's overall strategic planning, marketing and corporate management. As a company president, he provides leadership to position the company at the forefront of the industry. Developing strategic plans to advance the company's mission and objectives and as well as to promote revenue, probability and growth.

About the company: ADC USA, located near Cornell University in Ithaca, New York, is a leading developer and supplier of complex scientific components and instruments for large government laboratories and corporations around the world. Founded as a privately held company in 1995, ADC has grown into one of world's leading technology companies and has enjoyed 18 straight years of business growth and profitability with more than 500 customers located in over 26 countries. ADC's vision is to be a global leader in the development and manufacturing of innovative products for scientific and research markets.
